Peter Okumbe

Mendix Developer at Summit Developers | BSc (Hons) Computer Science Graduate

Netherlands

Summary

An inquisitive software developer that continuously remains keen to discover and learn more from a diverse range of sources and people. I am a huge advocate of faith, positivity, learning from mistakes and serendipitous experiences in life. "I solemnly swear" that the following words describe this dimension's version of Peter Okumbe: Faithful - logical - social - curious - neat - timekeeper - practical - problem-solver - communicator - avid football (soccer) fanatic.

I have always had a tenacious drive and focus to find ways to improve, both as a person and in my field of expertise, through all forms of presented opportunities in life. One can never stop learning: communication is key and any type of knowledge obtained from any type of source or person is power.

Equipped with 2+ years' experience of developing software applications and solutions as a Mendix Developer.

Did you enjoy reading that? If you are interested in knowing more, then grab some tea/coffee and check out my personal profile website: https://peterokumbe17.github.io/.

_____

Experience

summit developers
Mendix Developer
August 2025 - Present (6 months)
Rotterdam, South Holland, Netherlands

Contracted out to work for BRIS B.V via Summit Developers. Tasked with developing and maintaining applications to digitalize the inspection processes performed for construction buildings, as per the laws and regulations defined by the Dutch government.

LINKITSYSTEMS South Africa
2 years 4 months

Mendix Developer
October 2023 - July 2025 (1 year 10 months)
Centurion, Gauteng, South Africa

Development of both internal (in-house) and external (client) software applications and solutions through use of the Mendix low-code development platform.

Mendix Trainer
January 2024 - January 2024 (1 month)
Centurion, Gauteng, South Africa

Assisted in presenting content and providing training to a group of individuals that participated in the LINKITSYSTEMS South Africa Mendix 2-day Rapid Course. The 2-day Mendix Rapid Course was aimed at providing those in attendance an introduction and hands-on training into the world of low-code development, specifically using the Mendix low-code development platform. Upon completing the 2-day Rapid Course, attendees were equipped with the necessary knowledge to write their first Mendix Rapid Developer certification exam.

Mendix Trainee
April 2023 - October 2023 (7 months)
Centurion, Gauteng, South Africa

A traineeship (bootcamp) organized by LINKITSYSTEMS South Africa to learn about the low-code development of software applications and solutions using the Mendix low-code development platform, with the desired goal of growing to become a certified Mendix developer.

University of Pretoria/Universiteit van Pretoria
Computer Science Tutor
July 2020 - April 2023 (2 years 10 months)
Pretoria, Gauteng, South Africa

Served as a Tutor under the Department of Computer Science for the following modules:
- COS122 (Operating Systems).
- COS212 (Data Structures and Algorithms).
- COS214 (Software Modelling).
- COS221 (Introduction to Database Systems).
- COS332 (Computer Networks).
- COS333 (Programming Languages).

Responsibilities:

- Consultation sessions.

- Group project mentorship.

- Marking, grading and assisting of practical assignments and project demos.
